Applicant's remarks concerning the restriction requirement have been given careful consideration. In view of the fact that the structural features of the various species have mutually exclusive characteristics it would be a burden to the Office to search these several species separately. The restriction requirement is hereby made FINAL. Applicant states that all claims read on the species of Figure 7. The examiner finds this statement to be in error. For example, claims 2-4, 9-11, and 16-17 do not read of the species of Figure 7.

Claims 2-4 and 9-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 2 and 9 it is stated that the extraction assembly hole is smaller than the diameter of the embedded element. How is the embedded element supposed to fit in a hole that is smaller than the diameter of the embedded element?

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by DeRome.

In DeRome 14,16 may be termed a form puller device since it is capable of pulling a form and 10 is an extraction assembly having an attachment component and an engaging component.

Claims 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/17/05.

Claims 1, 5-8, and 12-14 are allowed.
